

SEWELL SWEEPERS

“

One of the best machines that Council has purchased

”

“We have used the sweeper extensively on a couple of recent construction jobs and found that its **PERFORMANCE exceeds our expectations.**”

At a recent employee meeting one of the guys said that this machine is one of the best machines that Council has purchased.”

Allan Marshall

Naracoorte Lucindale Council

April 2015

“We recently purchased a Sewell B200 Sweeper with catcher, for the daily sweeping of dust and woodchip fines at our Brisbane site.

When initially set up on our small tractor, the speed of the broom was too slow to pick up the light material effectively.

However, after a quick call to the guys at Sewell Sweepers to find a solution to increase the brush speed, a decision was made to swap the drive sprockets over, so we put the large sprocket at the top, and the small on the bottom of the drive chain, this increased the brush speed 3 fold.

We are extremely pleased with the overall performance of the Sweeper; **it has given us a very efficient and cost effective unit.**”
